Emergency Justification: The court's order is there shall be development and implementation of Constitutionally adequate mental healthcare for inmates committed to the IDOC. The court has determined these services are necessary and required. The monitor considers the current IDOC mental health service components to be in a state of emergency, grossly and Constitutionally inadequate, in addition to be unsafe and clinically inappropriate.

Considering the time frames needed for the selection, negotiation and execution of an A/E contract, an evaluation of the Illinois Youth Center at Joliet procured using QBS processes would likely not begin for several months. For this reason, an emergency procurement is necessary to ensure that an assessment of facilities takes place immediately.
